Toys, Dolls and Games.

THE TOY world was never more fully represented in one assemblage than it is in that now occupying almost an acre of space on our fourth floor.

It was gathered from the toy factories of the world, and it includes the inventions and handiwork of toy artists of every land where toys are made.

During his stay at the great toy fair held at Leipzig this year our personal representative met the most celebrated toy manufacturers of the day. He not only bought freely of all the splendid exhibits, but he also ordered a number of unique toys made especially for our children patrons, and these cannot be duplicated. Here are games of every description, dolls of every nationality and toys and toys, the most interesting, instructive and wonderful that ever came to toyland.

We call special attention to

Our "W. & L. Special" German Doll at \$1.00.

This Doll, we believe, has no equal anywhere. We had it made expressly for us in Germany, and had to take several thousand to get one as good. It is 22½ inches high (exact measurement); has best hand-sewed natural wig, best bisque head, full ball-jointed body, moving eyes, exposed teeth, shoes and stockings. The face is prettier and more lifelike than ever. In short, it is a doll of quality and a special value at \$1.00.

Our "W. & L. Special" French Doll at \$1.00.

This is the first time a French Doll has ever been produced to sell for a dollar. We succeeded, after repeated efforts, in having the maker get this doll out for us. It is a most beautiful and lifelike doll; has handsome hand-sewed wig, full jointed body, exposed teeth and shoes and stockings. This doll is a special value at \$1.00.

Tomorrow we shall demonstrate the following Toys and several other novelties:

THE FLYING TOP—one of the latest imported novelties.

THE REFLECTOSCOP—The new machine that takes the place of the Magic Lantern. Any kind of photograph, newspaper cut or post card can be used with this machine, and with either gas or electric light.

RUBBER BUBBLES—to make bubbles without water.

THE SIMPLEX TYPEWRITER—a very practical toy, both amusing and instructive.

THE AUTOMATIC PRINTING PRESS—another practical and instructive toy.

Purchases made now will be carefully stored and delivered at your convenience up to and including Christmas eve.

Huntley & Palmer's

English Cakes and Crackers.

THESE "Biscuits," as the manufacturers term them, need no introduction to many folks. To those who are not acquainted with them we extend a cordial invitation to inspect and sample the different varieties.

We wish to state that we are direct importers—dealing directly with the bakery—thus insuring a greater degree of "freshness" than is possible to obtain in "second-hand" dealing.

They come in half-pound packages and fancy tin boxes, and in thirty different varieties. Excellent for teas and luncheons and general use throughout the holiday season.

A complete assortment always in stock.

NEW CHIEF PRAISED

Printers Commend Selection of Samuel B. Donnelly.

LOOK FOR A SQUARE DEAL

Declared to Have the Capacity for the Position.

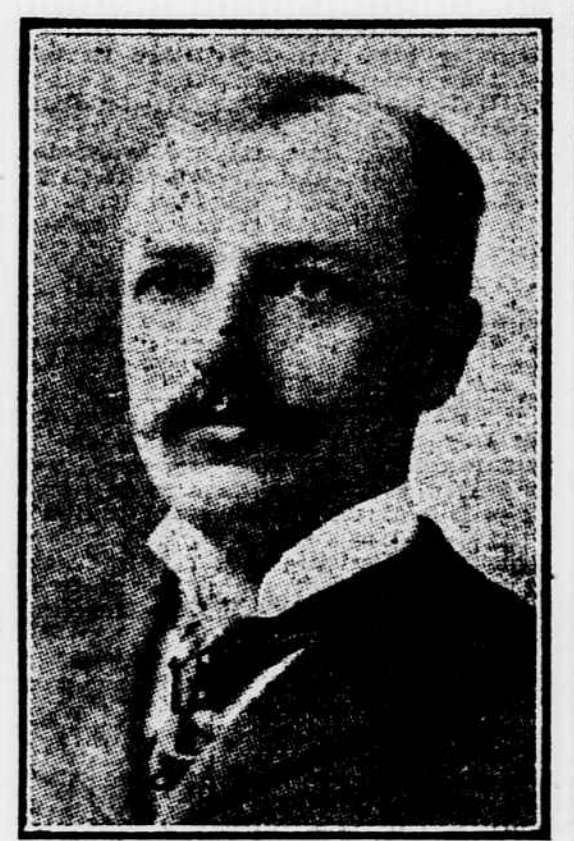

REGRET LEECH'S DEPARTURE

Pronounced by All of the Foremen of the Printery to Have Been Most Popular Public Printer.

Although the officials and employees of the government printing office generally expressed regret today at the resignation of John S. Leech as public printer, they coupled with their regrets expressions of commendation upon the appointment of Samuel B. Donnelly as his successor. One of the foremen of the office said that Mr. Leech was the most popular man that had ever held the vexatious office of public printer. He was in perfect accord with the typographical union, it was said, and always gave the employees of the establishment a respectful hearing. Words of commendation of the public printer were heard on all sides at the printery.

The recently appointed chief of the government printing office, Samuel B. Donnelly, was born in Franklin county, Pa., in 1868, and while yet a boy became a school teacher. Then he learned the trade of printer. He was elected president of the New York Typographical Union, better known as the "Big Six," in 1896.

After holding this office three years he was elected president of the International Typographical Union, holding the presidency two years. In 1903 Mr. Donnelly was made a member of the general board of arbitration of the building trades. He was a member of the New York board of education in 1901

and was reappointed in 1905. President Roosevelt last spring appointed him a member of the special committee to report on labor conditions in the Panama Canal Zone.

Can Handle Big Questions.

Frank A. Kidd, president of Columbia Typographical Union, No. 101, of which organization most of the employees of the government printing office are members, and who will therefore have close business and craft relations with the new public printer, in speaking of Mr. Donnelly's appointment today, said:

"Mr. Donnelly was at the head of the journeyman printers' organization for two years and evinced a large capacity for handling big questions in a big way. He has had a wide experience in the printing trade, knows the necessity of thorough organization to the proper conduct of any large manufacturing plant, and if allowed sufficient time to marshal his forces and install his plan of operation will doubtless bring to the government printing office a condition desired alike by officials and employees—efficiency and contentment."

"The retirement of Mr. Leech is regretted by those who know him."

Secretary Seibold's Comment.

George G. Seibold, secretary of Columbia Typographical Union, after expressing regret at the coming retirement of Mr. Leech, said when the latter came here from the Philippines he found affairs at the government printing office in unsatisfactory shape.

"He has put matters in good form," Mr. Seibold added, "and I am sorry to hear of his retirement. I know Mr. Donnelly, having been a delegate to the convention at which he was sworn in as president of the International Typographical Union. I believe his appointment will prove generally acceptable to organized labor."

Seibold's comment.

William M. Garrett, former delegate to the American Federation of Labor from the International Typographical Union, who was also prominently mentioned as a successor to Mr. Stullings as public printer, said concerning the change at the government printing office:

"The appointment of Samuel B. Donnelly, ex-president of the I. T. U., to the public printership cannot but meet with entire satisfaction to every one interested in the successful running of that great workshop. Aside from being a practical printer of many years' experience, he possesses exceptional executive ability. Mr. Donnelly also has the faculty of making and holding friends, and from long acquaintance and a personal knowledge of his eminent fairness in dealing with men, I feel that the employees of the government printing office will come about as able to getting an exemplification of the President's 'square deal' policy as is possible for any one to give. He has never been employed in the government printing office, and therefore comes without prejudice to all contending factions for preferment, and I fully believe that his administration of the office will be about as near ideal as it is possible to make such an office."

TURKEY SHOOT ENDS BADLY.

Boyd's (Md.) Negro Lying at Point of Death From Bullet Wound.

Levi Mason, colored, thirty-five years of age, of Boyd's, Md., is lying at the point of death at the Casualty Hospital, as a result of having been shot by Bradley Doy, a colored youth, of the same place, yesterday afternoon about 2 o'clock.

Stories of the cause of the shooting are conflicting. It is stated by some witnesses that Doy deliberately fired at Mason, while others think he aimed at a third colored man and that Mason received the shot. The bullet penetrated his right lung, liver and upper part of the stomach.

It is stated Doy had been drinking and was quarrelsome. The men were at a large gathering of negroes, who were shooting for turkeys as prizes. A gun is said to have been taken from Doy in one fracas, but he secured another, with which he did the shooting.

After the shooting Doy went to his home, but was later arrested as he was leaving the place. He was committed to the jail at Rockville by Justice Grimes. Mason, who bears a good reputation, is the father of eight children, who are dependent on him.

The injured man was brought to this city on a train and removed to the hospital.
